DETAILED ACTION

This is the final Office Action for the serial number 10/797,896, DUCT HOLDER, filed on 3/10/04.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent # 5,221,064 to Hodges.

Hodges teaches holder (figure 1) comprising a main body (38) having a generally U-shaped configuration and a central channel (42) extending therethrough and an upright support member (18) secured to a bottom of the main body. The upright support member being configured for securing to a structural member. The support member is provided with a plurality of openings (24) to allow attaching of the support member to a structural member (14). The main body has a generally arcuate configuration. The support member has a pair of telescopically (20 and 22) engaging parts to allow extension of the support member to a desired elevation. The support member has elongated body (a block that provides two holes, 24).

Response to Arguments

Application/Control Number: 10/797,896

Art Unit: 3632

Applicant's arguments filed 1/10/06 have been fully considered but they are not

persuasive.

The applicant argues, "Hodges discloses that the second section 22 of the hanger rod 18 is either

rigidly attached to the yoke (col. 2, lines 62-64) or pivotally secured (not shown in the drawings)

to the yoke (col. 3, lines 25-31). Pivotal movement of a constricted duct is not the same as a free

rotational movement of the main body as contemplated by the instant invention." The examiner

disagrees with the applicant regarding limited pivotal movement of the rod to the yoke because

in specification (col. 3, line 28) of Hodges's invention states that "By pivoting the yoke 38 about

the hanger rod 18, the pipe hanger can be used to suspend pipe from a joist where the pipe does

not run parallel or perpendicular to the joist." Since Hodges cited the term of "about", which

means the yoke is able of rotating in vertical axis of hanger rod.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time

policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Application/Control Number: 10/797,896

Art Unit: 3632

however, will the statutory period for reply expire later than SIX MONTHS from the mailing

date of this final action.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Alfred Joseph Wujciak III whose telephone number is (571) 272-

6827. The examiner can normally be reached on 8am-4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Robert Olszewski can be reached on (571) 272-6815. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
